

## POINT ALPHA

46° 20' N / 51° W

## POINT CHARLIE

Point Charlie becomes an area that must be avoided, a polygon that covers an area defined as follows:

NW corner = 42° 35' N / 68° 00' W

NE corner = 42° 35' N / 67° 35' W

SW corner = 42° 10' N / 67° 50' W

SE corner = 42° 10' N / 67° 40' W

In addition, we are issuing a general advisory for the area between longitudes 67° W and 69° W. When you are sailing through this area, there is potential for an aggregation of Right Whales to the north of the 50 fathom contour of Georges Bank.
